Epson **AcuLaser CX29NF Series**

DATASHEET

KEY FEATURES

- Fast print speeds of 23ppm
- Print resolution of 600x600dpi
- High-quality printing and copying with excellent colour
- 256MB standard memory; optional 512MB of additional memory

Developed for demanding micro-businesses and small businesses, the Epson AcuLaser CX29NF Series is engineered to meet every business requirement with print, copy, scan and fax functions.

All models in this multi-function series can easily handle large jobs and, with print and copy speeds of 23 pages per minute for both mono and colour, it is one of the fastest in its class. Professional-standard print resolution of 600x600dpi produces high-quality images, combined with vibrant and realistic colours thanks to Epson's AcuBrite toners.

Designed to meet the needs of complex IT environments, all models in the series come network-ready with numerous interfaces and emulations. Gigabit Ethernet as standard, IPv6, Adobe® PostScript 3® and PCL 5c/6 emulations provide greater flexibility and easy integration.

An automatic document feeder speeds up scanning and copying, while an additional 250-sheet paper tray can double paper capacity and increase productivity. And for greater efficiency, the CX29NF model comes with optional double-sided printing, cutting paper usage and costs by up to 50 percent. This duplex feature comes as standard on the CX29DNF.

The 256MB standard memory is among the highest in its class and you can enhance performance even further with an optional 512MB of additional memory.

As one of the most competitively-priced in its class, the CX29NF Series offers great value for money. ENERGY STAR-qualified reduced power consumption helps businesses further reduce total cost of ownership and environmental impact.

An additional 250-sheet paper tray increases paper capacity to 500 sheets.

TONER CARTRIDGE COLLECTION PROGRAM

This free service helps us to collect and recycle used Epson toner cartridges in a safe and environmentally-friendly way. There are three easy ways to dispose of your empty cartridges and take an active role in reducing waste:

- Put them in a toner cartridge collection box which will be picked up once full
- Return them free of charge by post
- Drop them off at an Epson Express Centre

Please visit **www.epson.com/recycle** for more details about the program
